## GAINING GROUND.

More Miners Cast In Their Lot With Strikers.

## TUG OF WAR IS APPROACHING.

Operators Will Attempt to Start Mines Under Police Protection.

## HUNGARIANS ASSAULT MINE BOSS

Break Made In the Ranks of Men Employed In Lattimer Mines. Coleraine Miners Submit Statement of Grievances—Police man Almost Preplanned a Riot—Progress of the Strike.

Philadelphia, Sept. 20.—According to advices from Hazleton the strikers are gaining some ground in that region, although the operators dispute this and insist that more men are at work than worked Wednesday. Important information comes from the Lackawanna region to the effect that the superintendents of some of the large mines are contemplating making an effort to start one or more mines under police protection, if necessary, and thus break the tie-up which is complete in that district. A few more men are reported idle in the Shamokin district.

Hungarians attacked a mine boss on his way to work near Shamokin and beat him nearly to death with clubs. Other cases of violence of this sort, though not so serious, are reported.

The strikers at last succeeded in inducing some of the workers in the only mine operating in the upper region, that of the West End company, at Muncyanaqua, to quit work and that colliery is crippled.

## HAZLETON DISTRICT

Strikers Hear Good News as Their Ranks Increase.

Hazleton, Pa., Sept. 20.—Reports received at strike headquarters and elsewhere from various parts of the Hazleton region brought nothing but good news to the idle anthracite coal miners. The first information brought here told of a break among the employes in the Lattimer mines, the first that has taken place there during the strike. The colliery was considered an invulnerable spot and the break there put the strikers in a good humor. The number of men who quit was quite small, however, but the union men are satisfied that they will make further inroads on the force there.

The next good news received by the strikers came from Coleraine and was to the effect that the colliery there was shut down tight. The McAdoo strikers have been trying for four days to close this place.

The Evans colliery at Beaver Meadow also failed to start work owing to the fact that not enough men put in appearance to operate the workings. Both the Coleraine and the Evans collieries are operated by the A. S. Van Wickle company. All of this company's mines in the Hazleton region are now closed.

A committee of three miners employed at the Coleraine mines called upon Superintendent Ayres and presented a set of grievances for the company's consideration, as follows: "We the undersigned committee of Coleraine do hereby ask for two weeks' pay and 10 per cent increase on the dollar; 15 per cent off the dollar on a keg of powder and that all men get paid for overtime work." Superintendent Ayres received the men pleasantly and told them they would receive an answer in three days.

A few more men went to work in the Marke mines at Jedd and Oakdale than worked Wednesday. The strikers claim the reason for this was a report had gotten into circulation that the men who lived in the company's houses and dealt in the company's stores would not receive the pay due them if they did not go to work. This, however, was denied by both the non-union men and the company.

There was considerable excitement about 6 a. m. in the vicinity of No. 40 shaft of the Lehigh Valley Coal company east of this city. The coal and iron policemen had gone to the houses in that locality and induced a number of breaker boys to go to work, it was charged. Strikers at the same time attempted to persuade the boys to stay out, but retired when they insisted on working. On the way to the shaft a half dozen foreign speaking women

surrounded the policemen and taking the dinner pails from the now frightened boys, threatened to strike the coal and iron men. A mob of 500 persons soon gathered and for a time it looked as if the policemen would get the worst of it, but they managed to escape the crowd without precipitating a fight. A few of the boys went to the mines with the policemen, but most of them returned to their homes.

The mines at Eckley and Sandy Run are in full operation as usual and the Marke mine at Highland is operating with about the same force as before.

### At Pottsville.

Pottsville, Pa., Sept. 20.—A mass meeting of mine workers numbering over 2,000 at Mahanoy City, was addressed by labor leaders, but no action was taken pertaining to the strike. All the collieries are at work. Morea is still shut down. At Shenandoah, all the collieries are operating, with about 200 hands short among 10 collieries. The recruiting and swearing in of coal and iron policemen continues. Sheriff Toole has been wired from Carson washery near McAdoo for a posse of deputies, but has taken no action. It is announced the superintendents have been very active along certain lines and almost any day may make a determined show of strength against the strikers. They intend to centralize men at certain of the collieries and operate them under the protection of the law if necessary. For this latter emergency they have had some hundreds of men made deputy sheriffs and watchmen. Their confidential runners have canvassed many of the miners and laborers at their homes and the opinion is that an entering wedge is almost ready to be driven in the stronghold of the strike, district No. 1, where there is no change from previous conditions.

### At Scranton.

Scranton, Pa., Sept. 20.—The Oxford, Belleville and Diamond washeries went to work as well as three smaller washeries. The Lackawanna company has been successful in working many of its men at the three places named, the regular working force being practically on strike. Two of the minor washeries, the Columbus and the Anthony, have made overtures for settlement, while the Gibbons drift is also said to be ready to settle. One of the culm banks, the Bellevue, was the scene of a tragic death. Frank Mangan was there gathering coal along with a crowd of others. Suddenly some one shouted "the watchmen are coming," and there was a hurry to get away. The man was feeble from sickness and in the excitement of the moment he fell and died on the edge of the dump. Heart failure was the cause. National Organizer Dilcher and other workers from this region will go to the Hazleton section Sunday in an endeavor to complete the tie-up there and in the Schuykill district.

### At Wilkesbarre.

Wilkesbarre, Pa., Sept. 20.—The strikers succeeded in inducing about 50 men employed at the West End Coal company's colliery in Muncyanaqua, the only mine at work in the upper region, to quit work. This is the first break in the working force of the mine since the strike began. The United Mine Workers say that more of the employees will quit work. The situation in the other portions of the district is unchanged, all the mines being closed.

### Called to Washington.

Portsmouth, N. H., Sept. 20.—Secretaries John D. Long and Lyman J. Gage left here at an early hour for Washington. It is stated that they received summons from the president to return, owing to the urgency of the Chinese negotiations.

### Doesn't Want the Office.

Boston, Sept. 20.—It is announced that former Governor Roger Wolcott will not accept the post of ambassador to Italy, tendered him by President McKinley. He has notified the state department by cable from Europe, also by letter.

### Accept the Reduction.

Lebanon, Pa., Sept. 20.—Three-fourths of the 1,200 mine workers of the American Iron and Steel company who struck Aug. 1 against a reduction of wages from \$4 to \$3 per ton, decided to return to work at \$3.

### Threw Wife Out of Window.

New York, Sept. 20.—Joseph McGuinn is locked up on accusation of killing his wife, Mary, by throwing her out of the window of their third story flat in Second avenue. The woman's neck was broken by the fall.

### Struck In Sympathy.

Lowell Mass., Sept. 20.—In sympathy with 400 print workers of Merrimac company, who struck against working overtime without increase of pay, 200 employes of the packing room have quit.

## FIGHT WITH FILIPINOS

Desperate Battle With Insurgents In Laguna Province.

### A PROFOUNDLY IMPRESSIVE LOSS.

Americans Waded Water Waist Deep. Insurgents Dispersed and Will Be Amigos Awhile—Disturbed Conditions In Luzon.

Washington, Sept. 20.—A dispatch to the war department from General MacArthur confirms the report of activity of insurgents. General MacArthur says: Fighting reported vicinity Carig and Estella, Isabella province. Insurgents estimated 500, probably exaggerated, but sufficient force to make trouble in district heretofore quiet. In the Ilocan provinces Samuel B. M. Young (Brigadier General) reports numerous small affairs and has called so emphatically for more force that Kingsbury's squadron, third cavalry, and Borden's battalion, Fifth infantry, have been sent him, other battalion, Fifth, same destination upon arrival. County north Pasig including all of Bulacan very much disturbed and numerous contacts with small parties throughout that district south of Pasig including Tayabas province (Luzon) same conditions obtain. This activity has been anticipated and reported upon in letters Aug. 25 and cable Aug. 31. Sept. 16 David D. Mitchell (captain) Fifteenth Infantry, 20 men company L Fifteenth infantry from Siniloan, Laguna province, attacked insurgent General Caillas who had 800 men in position at Mavita, same province. Desperate fight ensued which was pushed from the front with great pertinacity by Mitchell across causeway and through water waist deep; attack under George Cooke, captain, with 40 men, company K, Fifteenth Infantry and 10 men company B, Thirty-seventh volunteer infantry, could not reach enemy's position because of high water in arm of lake which could not be crossed; entire country was afloat in consequence of recent rains; this very much impeded offensive action. After one hour 20 minutes' fighting command withdrew to Siniloan. Upon renewal operations Sept. 18 found that insurgents had escaped from Mavita previous night, most of them no doubt going back into contiguous barrios to appear for time being or until called into field again as peaceful amigos. Casualties, which all occurred Mitchell's command, consisting of 130 men, four officers were: Company L, Fifteenth infantry, killed and died wounded, David D. Mitchell (captain Fifteenth Infantry); First Sergeant William Fitzgerald, Sergeant Evremond De Hart, Corporal Laurits Jensen, Privates Edward C. Coburn, George R. Horton, Thomas P. Kelley, Thomas Mulroy, John P. Brink, William L. Bunker, Arthur S. Mansfield, Thomas I. Pitcher, Scott L. Smith, Richard Taylor, Edward M. Neil, Fred Duggan, Emanuel Kaufman, Company L, Thirty-seventh volunteer infantry Sergeant Thomas P. Howe, Privates James C. West, Edward J. Goodahl, George Haight, Edward Stalleup, Alfred J. Mueller. (Then follows list of 19 wounded).

General MacArthur concluding says: Thirty-three per cent is profoundly impressive loss and indicates stubbornness of fight, fearless leadership of officers and splendid response of men. Insurgent loss as far as known, 10 killed 20 wounded; among the former Colonel Fidel.

### INSURGENTS ACTIVE.

Filipinos Become More Aggressive During Past Week.

Manilla, Sept. 20.—An increase of aggressive activity on the part of insurgents has developed during the past seven days, particularly near Manilla, along the railroad and in the provinces of Laguna, Morong, Bulacan, Nueva Ecija and Pampanga, culminating Monday in an engagement near Siniloan, at the east end of Laguna de Bay, in which detachments of the Fifteenth and Thirty-seventh United States Infantry regiments, 90 men all told, met 1,000 insurgents, armed with rifles and entrenched. The American loss was 12 killed, 45 wounded, including Captain David D. Mitchell and Second Lieutenant George A. Cooper, both of the Fifteenth infantry; 26 missing, who are probably dead. The enemy had been pursued for several days.

Refugees are arriving here from Laguna, Morong and Pampanga provinces. The natives of Manilla are restless and many are leaving the city. There are rumors of trouble in Manilla and attacks on the railroad. The hostile demonstrations are partic-

ularly marked along the railroad and on the shores of Laguna de Bay. The insurgents have attacked garrisons and outposts. In some cases they have charged towns, fleeing when pursued.

The Manilla mail escort of 30 men was attacked at Cabugao lake, a two-hours' fight ensuing. Cabugao was also attacked, the telegraph office there being destroyed. The insurgents have burned the village of Rosario. They have been cutting the telegraph wires and railroad at certain points.

Armed insurgents have appeared in the districts of San Jose, San Matto and Mariluina. In the province of Nueva Ecija ration wagons, with an escort of 12, were attacked and the wagons burned. Five members of the escort are still missing.

### REPLY TO GERMANY.

May Be Broad Enough to Cover the Entire Situation.

Washington, Sept. 20.—As the state department has determined to adhere to the diplomatic proprieties in publishing whatever response it may make to the last German proposition relative to the punishment of the Chinese responsible for the Peking outrages, it is expected that the text of the United States note and even the substance, will be withheld from publication here at least two days after its delivery.

It is believed the answer will take the form of a circular addressed not to Germany alone, but to each of the powers interested in the Chinese situation. Furthermore it is believed instead of being an unconditional acceptance or rejection of the German proposition it will be rather controversial and be framed with a purpose to develop the sentiments of the other powers respecting the German proposition and to secure support for the administration's view of that matter.

As Count Von Wallersee still needs a week's time to complete his journey to Peking, it is not likely the German government will interpose serious protest against any action on the part of the United States which will have the effect to postpone the beginning of a settlement until the field marshal arrives at Peking.

The Chinese minister, Mr. Wu, was again at the state department at an early hour strenuously urging the officials to begin negotiations at once and directly with the Chinese government if need be. He had been informed by his own government that the technical difficulty in the way of these negotiations was Mr. Conger's lack of authorization. Mr. Rockhill also is powerless to meet the demand for an immediate representative. Now the Chinese officials are asking with great urgency that special credentials be committed to Mr. Conger or that some other properly empowered person may begin at once.

### Wants to Divide Forces.

Washington, Sept. 20.—The war department has received a cablegram from General Chaffee recommending a division of his forces between Peking, Yangtsun, Tien Tsin, to avoid further crowding Peking, leaving one battalion only at Tien Tsin, which is low, damp and unsuitable. Condition of the Chinese is some better. Gardeners enter the city freely relieving the distress prevailing some days ago. There is a slight resumption of trade and other conditions are very fair rendering the situation quiet.

### Oppose Protectionism.

Washington, Sept. 20.—The Chinese minister has received a dispatch from the viceroys of the southern provinces of China making an appeal for the opening of peace negotiations without further delay. They represent that a prolongation of the present unsettled condition is a serious disadvantage to China and all parties concerned.

### Allies Attack Chinese Fort.

Taku, Sept. 20.—The allies attacked the Peking forts at daybreak. Heavy canonading is going on.

### Galveston on the Mend.

Galveston, Sept. 20.—Every man who is willing to work has been pressed into service here. The wreckage is fast being cleared away and an air of business once more pervades the city. A revised list of those who perished has been carefully compiled from various sources and places the number of known dead at 4,754. The railroads have large forces of men at work and outside communication is now a matter of only a short while.

### Tragedy Fit of Insanity.

Sumpter, Ore., Sept. 20.—Fred Kane, who resided six miles north of here, in a fit of temporary insanity shot his wife and stepdaughter and burned the body of the latter by setting fire to their cabin home. He then attempted suicide by shooting himself. Persons passing found Kane and his wife a short distance from their home in a dying condition. Kane was married only a few months ago.

## CAMPAIGN EVOLUTIONS

Politicians Expound Doctrines and The Guards Play on.

### ELECTION DAY COMES ON APACE.

McKinley May Make Western Trip Before Campaign Closes—Bryan In His Home State—Roosevelt's Dates in Indiana

Chicago, Sept. 20.—It is possible that President McKinley may make several trips to the west before the close of the campaign. To induce him is one of the objects of a visit which Senator Hanna will make to Canton Sunday. President McKinley will be in Canton at the time. "The subject has not been discussed extensively," said Vice Chairman Payne at the Republican national headquarters, "but that it would be a wise thing for McKinley to do is beyond question."

Senator Hanna has made no public utterance regarding his intention to bring the president to Chicago. He was occupied receiving callers who are pressing upon him in anticipation of his departure for the east Saturday. Numerous efforts were made to have him promise to make campaign speeches, but he declined to consider further invitations until his return from New York. Senator Hanna spoke at the Marquette club banquet and later at the German Republican meeting in Central Music hall.

General O. O. Howard called at Republican national headquarters. He has just returned from West Virginia, where he has been making campaign speeches. "I am satisfied," said he, "that West Virginia will go Republican by a gratifying majority." The general left for Nebraska to begin a two weeks' tour.

Willis George Emerson, first assistant chairman of the speaker's bureau, says it is possible former President Harrison will consent to take the stump for McKinley and Roosevelt. "There is nothing definite as yet," said Mr. Emerson, "but we are in correspondence with General Harrison and are hopeful of success."

**Bryan In Nebraska.**  
Lincoln, Neb., Sept. 20.—Mr. Bryan will spend Friday and Saturday campaigning in the vicinity of Lincoln. He will visit several points near this city, making brief speeches. Mr. Bryan will rest at home in Lincoln during the first three days of next week and next Thursday will start on his Dakota trip. Mr. Bryan said that after starting to Dakota he would continue his work in outside states, not returning to Nebraska until two or three days before the election in November.

**Jones Back In Chicago.**  
Chicago, Sept. 20.—Chairman John Jones of the Democratic national committee smiled while discussing a story that Richard Croker had pledged \$100,000 to the national campaign fund. "So far as I know there is nothing in all this talk," he said. Senator J. K. Jones has returned from New York.

**Michigan Democratic Opening.**  
Detroit, Sept. 20.—At the formal opening of the Democratic campaign in Michigan, the speakers were Senator Wellington of Maryland, Mayor Jones of Toledo, Rev. S. W. Sample of Minneapolis, and the Democratic candidate for governor, Mayor Mabury of Detroit.

**Prohibition Train.**  
Creston, Ia., Sept. 20.—The Prohibition train arrived at Charlton, Ia., early and a committee escorted the visitors to the court house square, where an open air meeting was held. The next stop was at this city.

**Roosevelt's Hoosier Dates.**  
Indianapolis, Sept. 20.—Governor Roosevelt's Indiana tour will begin at Hammond Oct. 10 and end at Evansville, Oct. 12.

**Seized Loot From Tien Tsin.**  
San Francisco, Sept. 20.—The revenue officers have brought down from the Mare Island navy yard on a government tug 154 cases of rare Oriental goods, which had been smuggled into the country on the hospital ship Solace. The articles seized would net a small fortune. The duty is nearly 60 per cent of the value of the goods and, on this account most of the stuff, which includes loot from Tien Tsin, will probably be abandoned to the government. The cases of silks and earlors are addressed to persons all over the United States.

**Plymouth, Ind., Sept. 20.**—John K. Lawrence, Democratic candidate for joint senator for Marshall and Kosciusko counties, died at his home in Plymouth, from diabetes.

FRIDAY, SEPTEMBER 21, 1900

Fair, warmer to-day.  
Saturday, fair.

More than 1,000 Republican workingmen in New Albany, Ind., Friday went over to the Democratic State and county ticket. Get in the band wagon, boys.

Boss HANNA went to Chicago this week and got together a dozen or so millionaires. The men at the table represented \$25,000,000 wealth, and he worked his old game of scaring them out of some of their dollars to help elect McKinley and save—the poor workingmen from starvation. These millionaires of course are very greatly concerned over the condition of the laboring classes.

Mn. BRYAN—"Hello, Central! I want to talk to the American workingman."

Central—"He's nt work and very busy, Mr. Bryan; ring off, please."—Public Ledger.

What about the 60,000 steel workers who have been idle for months because of the oppression of the steel trust? And what about the 120,000 coal miners who are on a strike trying to get the coal trust to give them living wages?

EX-CONGRESSMAN JOHN D. WHITE, once a prominent Eleventh district Republican, now the Prohibition candidate for Governor, comes out flat-footed against McKinley and Yerkes, because, he says, "the log cabin is the bulwark of assassination, and the canteen is a greater question than any election law can be." And just think of it, there are some alleged Democrats who are trying to crawl under that "bulwark of assassination."

### REED AND HARRISON.

Boss Hanna and his compatriots on the Republican National Committee, have about given up the efforts to induce ex-Speaker Thomas B. Reed and ex-President Harrison to take the stump for McKinley. Having failed to lure these two able, but wily politicians from the brush heap by siren voices, Hanna has tried the more heroic expedient of jumping on the brush and trying to frighten them. They will neither be coaxed nor frightened, and the Republican campaign, in the interests of the trusts, and the Cuban, Porto Rican and far Eastern development company, will, it seems, have to be carried on without them.

## "UP-TO-NOW" CITY.

Charley Townsend Tells of His First Visit to Maysville.

Had No Idea It Was Such a Lively Place. Our Banks, Factories, Hotels and Churches.

[C. W. Townsend in Lexington Leader.]

For the first time I visited Maysville yesterday. I had been to every other town this side of the Mississippi river worth seeing and longed to see Maysville. I was delighted with the place. It is the biggest town of its size I ever saw. The people remind me of New Orleans. Merchants will make a customer wait while they give a stranger directions as to where he wants to go. Lawyers will close a law book and leave the place where they left off in charge of a book mark while they cross the street to introduce a stranger to a cigar dealer. The citizens generally seem to give more attention to the courtesies of life than to business. At the same time, Maysville is a business town.

I suppose there are more substantial business houses in that town than can be found in any other city of its size in the State. In fact, Maysville is an "up-to-now" town. They have four banks, enough for Lexington, and as many as Galveston where they did a business of seven millions a week before the storm. Maysville has two railroads, the L. and N. and C. and O. and one river, the Ohio I believe. She has a cotton mill that employs 400 hands the year round; a plow company that employs 150 hands six cigar factories; gas, electric and water works; electric street railway; twenty-two saloons, enough for any town.

Maysville has two hotels, the Central and New St. Charles. I met my old friend, T. Mehan, at the latter. He is looking and doing well. He was dressed in spotless linen and is as popular in Maysville as he was in Lexington in the palmy days of the "Little Parlor." Hopper & Hunter forced me into the dining room when I was not hungry. The scenery from this dining room would make any man enjoy the delicious meals they serve. The hotel is right on the C. and O. railroad overlooking the beautiful Ohio.

The L. and N. has an attractive new depot. Ten churches, all denominations, are a credit to the city. The Catholics are building a new \$60,000 church. Several wholesale whisky houses, three distilleries and bottling works bring up the rear.

W. C. Rogers, formerly of Lexington, is bookkeeper for G. W. Rogers & Co. Will has joined two Prohibition societies, one Sunday school and the Salvation Army.

John Fansler, formerly of Lexington, and brother-in-law of Mr. Will Hardeman, of Lexington, is doing well and is as crazy as ever. He reported two cases of smallpox and several mild cases of snakes in his part of the city.

Will H. Lynch, the Leader reporter and the best known correspondent in Maysville, showed me the sand hole in which the negro was burned last December. Will made \$125 out of that fire. He represents twenty-seven big daily papers.

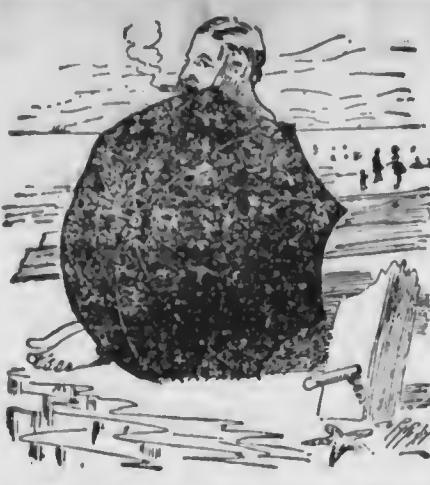

The Leader is extensively read in the proud and aristocratic capital of Mason County, and many of your readers asked me about the new \$200,000 city building and expressed a desire to be in Lexington at the funeral. I told them I would give them due notice through the Leader.

I was under the impression that Col. W. W. Baldwin lived in Maysville, but I was mistaken. He owns Maysville, but lives about one and one-half miles outside the gates. I sighted his two-story "beaver" several blocks away. He is a sort of a light house for strangers.

The annual offering for church extension will be taken at the Christian Church next Sunday. Those who have already subscribed to this fund can pay the amount any day to Mr. Ed. Parker, at First National Bank, or place it in Sunday's offering.

Charles Fischer, Jr., filed suit Thursday against his wife, Emma Fischer, for divorce, on ground of abandonment. They were married in March, 1899.

Glorious News  
Comes from Dr. D. B. Cargile, of Washington, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by J. J. Wood & Son, druggists. Guaranteed.

### THE BENEFIT CONCERT.

Over \$200 Realized Last Evening For the Relief of the Galveston Storm Sufferers.

The concert at Masonic Temple last evening under the auspices of Maysville Commandery No. 10, K. T., for the benefit of the stricken city of Galveston was a success. A large audience was present, and many others who did not attend contributed to this most worthy cause. The exact amount realized will not be known until to-morrow, but the sum is over \$200. Following was the program:

The Creole Queen.....Orchestra  
Wedding of the Winds.....Orchestra  
Tenor Solo.....Dr. P. G. Smoot  
The Holy City—Trombone Solo.....Mr. A. Ellis Lombardi—Fantastical Brilliance Prof. R. J. Bulett

Misses Lida Berry and Harriet Johnson, accom-  
panists.

In addition to the list previously published, the following purchased tickets, one each: Wm. McClelland, Mr. Key, Dr. L. H. Long, Dr. W. P. Dobyns, Mr. Marshall, Ed. Marshall, Mrs. Marshall, Mrs. Bine, Miss Best and John B. Peters, all of Lewisburg. Donations were received also from A. J. Calvert, Jerry Cole, Dick Gaither, Mrs. Chas. Marshall, Mrs. Chas. Owens, Mrs. Chas. Bolinger, Mrs. Jas. Runford and Miss M. Chamberlain, all of Lewisburg.

Death of Master Floyd Clark. Floyd, the nine-year-old son of Editor W. H. Clark, of the Aberdeen Gretna Green, died at his home in that city Tuesday morning after a two weeks' illness of fever. After funeral services at the residence Wednesday by Rev. Armstrong, of Aberdeen, and Rev. Gabby, of this city, the remains were interred in Charter Oak Cemetery, beside his mother, who preceded him to the grave eight years ago. Floyd was a general favorite with everybody, and beloved by all who knew him. We extend Mr. Clark and family our sincere sympathy in their sorrow.

Mrs. Elizabeth McCreary, of Flemingsburg, died this week, aged seventy-five years. She was a sister of Mrs. John R. Rudy of this city and mother of Will McCreary, formerly of Maysville, but now living in Cincinnati.

A Life and Death Fight. Mr. W. A. Illinois, of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. Kling's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost \$5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure throat, chest and lung troubles." Regular size 50c. and \$1. Trial bottles free at J. J. Wood & Son's drug store.

Bookkeeping.  
Prof. Leary is here again to teach book-keeping to ladies and gentlemen. He teaches, without a text book, the most modern methods in use by the practical book-keepers of the country. He can be found or addressed at O'Hare's hardware store.

Bond's Specific Cures Asthma and Hay Fever.

MAYSVILLE, KY., December 14, 1899.

The Herb Medicine Co.—Dear Sirs: I have been a great sufferer for many years with that dread disease Asthma. I tried every thing that I could hear of, but never found anything that did me any good until I took Bond's Specific. I have taken two bottles and it did me more good than all the other treatment I ever tried. I think two more bottles will cure me sound and well.

Respectfully, MRS. JOHN PEARCE.

Bond's Specific cures asthma and hay fever and tones up the system. For sale at Ray's, J. Jas. Wood & Son's and Chenoweth's drug stores.

### NEWELL-STRODE.

A Mason County Couple Married This Week at Georgetown, Ohio.

[Georgetown, O., News-Democrat]

Robert Earl Newell, a prosperous young farmer of Mason County, Kentucky, and Miss Eliza Dudley Strode, a "resident for the time being" of Brown County, Ohio, and a charming young lady, were united in marriage at the National Union Hotel Tuesday by Rev. C. W. Horn, of the M. E. Church. These young people, like many others from the same State, not from necessity, but because of a natural love of adventure and novelty and a dislike of the conventional wedding, came here to have the ceremony pronounced.

The groom is a son of Mr. W. R. Newell and the bride a daughter of Mr. Samuel Strode. Their many friends unite in good wishes.

Little Fernie Cox, the child who was burned to a crisp Tuesday morning by the explosion of a gasoline stove at Milldale, Ky., was a relative of Mrs. Eliza Johnson, of East Fourth street, and was quite well known here, being a visitor to her aunt, and while here had formed the acquaintance of a number of the little folks.

## DRINK PURE WATER AND ENJOY GOOD HEALTH

The long-continued drought throughout the county has made the question of stock water a serious problem.

Many farmers are compelled to haul water for miles, and some of those in the interior, who are not fortunate enough to possess good springs or wells, come all the way to the Ohio to get enough of the precious fluid to keep their stock alive.

What must be the condition of the wells and cisterns in a section where there has practically been no rain all summer?

Can what water remains be pure, untainted or fit for household purposes?

These are questions that require no answers.

## DRINK PURE WATER AND ENJOY GOOD HEALTH

To have pure water, equip your well or cistern with a Nonpareil Bucket Pump and Water Purifier.

We sell them.

It is the best pump on earth for wells or cisterns.

It has no superior for durability or price for wells up to sixty feet.

A ten-year-old boy can draw water with ease from a sixty-foot well.

It will not freeze, as the cups discharge themselves, having stood the test of 38 degrees below zero.

It saves its cost in doctor bills alone in six months.

## DRINK PURE WATER AND ENJOY GOOD HEALTH

For every gallon of water drawn, a gallon of air is circulated through the water, thus ventilating, vitalizing and purifying the water, destroying all germs of disease and removing all impurities from the foulest well or cistern in a few days' ordinary use.

We also offer and recommend the I. X. L. Patent Galvanized Steel Chain Pump Curb and Galvanized Steel Tubing.

### IN THE PHILIPPINES.

A Letter From Mr. John M. Henderson, of Cottageville, Giving Some of His Experiences in the Islands.

Mr. E. Henderson, of Cottageville, is in receipt of the following letter from his son John, who is in Uncle Sam's army in the Philippines:

LUNOA, P. I., Aug. 3, 1900.  
*Dear Father, Brothers and Sisters:* I seat myself to write you a few lines to let you know that I am what you might call well, but the doctor won't let me get out to duty yet, though I have been trying to for two or three days. I think I can go to duty tomorrow. This is a fine day. I suppose it is about as hot as it is there now, but it seems cool to what it was along early in the spring, for we liked to roasting then. I think we will get home about the middle of the winter. That will be a right smart change, but I guess most of us can stand it. We've stood right smart harder things since we came over here. I would rather get home in the fall or winter. To get home in the spring would give us too many summers together. It would be two winters we have missed and two years of hot weather. We all need a little cold weather to take the fever out of our system.

There are lots of wild hogs on this island. I had the pleasure yesterday of watching a wild hog chase. I could see the natives from our quarters; could also see the hog what time it wasn't in the bushes. The natives were armed with clubs and ropes and most always the hog made them run faster than they did it, but finally they roped him, and then commenced the tussle. But he was a pretty slick old fellow and he slipped the rope and disappeared into bushes. The natives sprang after him with a yell and the chase commenced again. I got tired watching them and went over and laid down, but heard one of the boys say in about an hour that they caught and fixed him.

There are lots of deer in the mountains, which are about twenty-five or thirty miles from here. There are lots of natives armed with rifles up there also. Our company and part of the Thirty-second Regiment had two small scraps up there about a month ago. We lost no men, but the bullets came too close for a fellow to feel very comfortable. The natives report were three wounded and we captured one. There are no organized native troops, but we have to go back in the mountains and chase them around and destroy their crops every once in awhile. Most of this falls on the Thirty-second Regiment to do, as they are quartered along the edge of the mountains. We are most too far away to go very often.

I got a letter from Jess Cropper not long ago. He was in better health than he had been since he entered the army. They are quartered in the land of Mindanao. He says there are lots of fine cattle there, but there are not many cattle here—some few, not very good stock what is here. Their chief beast of burden, and meat also, is the carabao or water buffalo, a beast which looks a right smart like an ox except its horns, which often measures five or six feet from tip to tip, and at their head are as big around as a man's leg. They are awfully fond of water and when they take a notion to find it they most always do so. When they start to find water they go in a run, and one carabao running makes about as much noise as a dozen horses. The only time I ever saw one get foaled, was one night I was on guard. We had outposts on them. Some time in the night we were awakened by what we thought was a body of horsemen approaching. It was pretty dark and we couldn't see very far. In a little while we heard the guard on post command halt. We soon saw he wasn't obeyed. He fired, and dropped back to us. We fired a volley at what we thought was a body of men on horses. In a little while all was still. We all felt pretty cheap the next morning when we seen a place where it looked like a log had been dragged off in the bushes. We soon realized what it meant, for off from the road was the poor old carabao. He didn't get his water that time.

Another time we fired in a flock of goats, killing one. He happened to be a young one and had a feast.

Well we've been on the island lacking two days of being seven months and I believe I am better satisfied now than I ever have been. I must close for this time. Hoping to hear from you soon, I remain as ever your son,
